Compact Size with Powerful Performance

15inch dish diameter with national coverage for US, Europe and the regional service around the global.

Faster Signal Acquisition

Intellian's exclusive Wide Range Search (WRS) algorithm allows antenna to search, find and lock on to a signal with incredible speed and accuracy.

A Firm Hold on the Signal

Dynamic Beam Tilting (DBT) uses a high performance, constantly adjusting sub-reflector which allows the antenna to remain relatively still, eliminating the constant whine of stepper motors while providing clear reception while the boat is in motion.

Simple & Easy Installation

With just a single cable to connect the antenna and the ACU, Intellian i3 systems are quick and easy to install. Our advanced ACU is designed to require a minimum of set-up so you can begin to enjoy TV programs aboard your boat in no time.

Tune in Your Favorite HDTV Channels

Intellian i3 will provide reception of HD channels on the Ku-band. The HD module is actually built-in to the Antenna Control Unit of the Intellian i3 for seamless integration and easy installation.

Built-in GPS

Built-in high performance GPS system, provided as default option, allows i3 to have higher accuracy and easy operation wherever the vessel sails.

User-friendly Operation

Antenna Control Unit (ACU), which is supplied as a default package, gives you the user-friendly operation for various function.
